What is EMMIE?

1 EMMIE : Erasmus Mundus Master in Impact Entrepreneurship :

Emmie is born thanks to a partnership between great accredited European Business Schools :

ZSEM (Zagreb School of Economics and Management), ISM in Vilnius and HEC-Liège.

UNIVERSITY OF MANAGEMENT
AND ECONOMICS

Zagreb School of Economics
and Management

Management School - Liège Université

The idea behind this Master is to allow you to take part in a community of entrepreneurs that bring needed changes in our society and to make you develop your entrepreneurial project in an inspiring ecosystem.

2 Having an Impact :

The world is changing!

For that reason the UN published the agenda for 2030 that relies on 17 Sustainable Development Goals.

To achieve this, the world requires entrepreneurs that are ready to face those challenges.

Impact entrepreneurship favours the creative and growth of entrepreneurs that are ethical, transparent and have meaningful impact on our lives and society. But unlike non-profit, they are creating social impact through market strategies and focus on the triple bottom line : Planet - People - Profit

What will you learn?

3 Overview on the programme :

- 90 ECTS spread over 18 months that are separated into 3 semesters.
- During the first semester in Zagreb, you will get the required basics in general management.
- During the second semester in Vilnius, you will study the key concepts related to the management of technologies and innovation.
- Finally in Belgium for the third semester, you will develop competencies related to entrepreneurship with a specific slant toward impactful projects.
